

The mission of ThriveRx is to optimize the nutritional well-being of our customers through a customized approach.

Our home parenteral and enteral nutrition programs are driven by consumers' needs and maintain the highest standards for service and clinical management. We offer quality care that fosters independence and empowers consumers and their families.

"I have found the best IV company! They do all the IV and tube feeds and have the most amazing supplies, including the smallest pumps available! I'm so glad I found Diplomat Specialty Infusion Group and ThriveRx! The other pharmacies in the area can't even compare!"

–Betsy

Priming Volume of 1.2 Micron Filter Line	10 mL for standard admin. set 20 mL for high volume admin. set	10.0 mL	5.1 mL
Display	LCD display with large font and backlighting	Large font with backlight	Large font and scrolling screen
Alarm/Keypad Volume Adjustable?	No	Yes	Yes
Sound While Pumping	😱 🌙	😱	😱 😱
Cool Extra Features	<ul style="list-style-type: none"> • Large screen with text and image support • Auto-prime feature • Rechargeable battery 	<ul style="list-style-type: none"> • Fast, programmable priming • Charger base/lithium-ion battery decreases battery waste 	<ul style="list-style-type: none"> • Time/volume remaining • Programmable occlusion sensitivity • Line pressure indicator
What We Like	Environmentally friendly pump/rechargeable battery, user-friendly, easy to teach, alarm help screens help troubleshoot pump alarms	Environmentally friendly pump/rechargeable battery, lightweight, no bulky battery adaptor	More control to the consumer to manipulate pump. Has a lower prime volume and can change pump settings without having to relock pump
What We Don't	Takes longer to prime and slightly larger than other pumps	Battery life not as long, not as easy to program, locking capability not easy, tubing difficult to insert pump	Bulky, no rechargeable capability, C batteries are heavy, difficult to insert tubing into pump
Who Seems to Use It	Appropriate for all patient populations and patients wanting eco-friendly pump	Independent, eco-friendly, pediatric, looking for maximal portability and battery life	Pediatric patients with caregivers savvy in pump manipulation
